

Billy

Major: Biochemistry

Interests:

- Traveling
- Learning Japanese
- Skiing

Billy's plan for one experiential learning: Billy already has a job working as an assistant in a lab to find the cure to cancer. He plans to apply fall quarter to use his ongoing lab job as experiential learning.

Bob

Major: Undecided

Interests:

- Drawing
- Playing board games
- Passionate about ending climate change and helping the environment

Bob's plan for one experiential learning: Bob wants to study abroad in London next year, but the study abroad program is not through the Honors program, it is through the English department.

Joe

Major: Business (finance)

Interests:

- Animals
- Running
- Playing guitar

Joe's plan for one experiential learning: Joe just got elected to be the president of his fraternity for the upcoming school year. He hopes to use this as experiential learning fall quarter.

Sally

Major: LSJ (law, societies, and justice)

Interests:

- Video games
- Writing
- Programming and writing code

Sally's plan for one experiential learning: Sally volunteered to help clean up trash around campus this past weekend. She helped for 3 hours. She plans to use this volunteer experience as experiential learning.

Sue

Major: Gender and women's studies

Interests:

- Baking
- Reading
- Socializing and talking to others

Sue's plan for one experiential learning: Sue volunteers twice a week (2 3-hour shifts per week) at a homeless women's shelter and wants to use this as one of her experiential learning activities.

Possible Answers for experiential learning based off of interests (for my use only):

Billy: Study abroad in Japan, join one of the skiing clubs on campus and get a leadership position

Bob: Join a drawing or board game club on campus and get a leadership position, do a volunteer project related to helping the environment, research related to the environment

Joe: Volunteer at local animal shelter, create/join a guitar club and take on a leadership role, research related to animal behavior

Sally: Research job that requires programming, creating a video game club and taking on a leadership role, doing a study abroad program through the English department to learn more writing skills

Sue: Form a baking or reading club and take on a leadership role, do bake sales to raise money for a certain organization for service
